president's MESSAGE

t is an exciting time for BBB Wise Giving Alliance as we continue our mission to promote wise giving and strengthen public trust in the charitable sector in a changing world. This year marked the official launch of AskGive, our AI-powered giving advisor. What makes this tool special is that it builds on BBB Wise Giving Alliance's 100-year legacy of providing reliable information. AskGive combines advanced artificial intelligence with our extensive library of charity evaluations and expert donor resources to deliver real-time answers to questions about charities and giving. Our hope is that AskGive empowers wise donors like you to give with confidence and connect with trustworthy charities. We will continue to enhance this tool to ensure that trust and transparency remain central to philanthropy in our increasingly digital world.

We are also making strong progress on our project to revise the BBB Charity Standards, a key effort to strengthen and streamline the foundation for our charity evaluations. An advisory committee of 20 experts, representing national and local charities, private foundations, regulators, and other leaders in the sector, has been meeting regularly to move this effort forward. Together, we are reviewing both traditional

and the use of AI by charities. Along the way, we invite charities, donors,

accountability areas and emerging issues such as cybersecurity, donor privacy,

and the public to share their perspectives.

In this issue of the *Wise Giving Guide*, we feature stories that provide insight into the current state of the charitable sector and opportunities for engagement: 2024 giving statistics, a glimpse at the challenges facing the sector in 2025, and the increasing value of volunteer time.

As we look ahead, BBB Wise Giving Alliance remains committed to helping donors make informed, confident decisions and to supporting charities that demonstrate transparency, integrity, and accountability.

Thank you for your continued trust, engagement, and support.

Bennett M. Weiner.

President & CEO

Donor Handbook

2024 GIVING STATISTICS

According to *Giving USA: The Annual Report for Philanthropy*, total giving during 2024 was \$592.45 billion in 2024, a 3.3% growth over the previous year when adjusted for inflation. While the total amount of charitable giving has grown, the share from individual donors has dropped from 82% in 1984 to just 66% in 2024, highlighting a steady decline in the number of U.S. households contributing to charity. Religious organizations remain the largest recipient of donations, accounting for 23% of all giving.

The *Giving USA* report is published by the Giving Institute, with research conducted by the Indiana University Lilly Family School of Philanthropy. The charts below are based on their findings.

- * According to Giving USA, the distribution of donations by type of organization should be adjusted by subtracting \$38.6 billion in unallocated giving.
- ** Giving to Individuals consists of gifts-in-kind made my pharmaceutical companies to patients in need.

2025: AN UNCERTAIN YEAR FOR CHARITES

For many charities, 2025 was a year of uncertainty and adaptation.
For decades, charities have been operating in an increasingly polarized political and social climate, which has made it more challenging to build trust and engage donors. At the same time, a long-term decline in the donor base has continued to put pressure on fundraising efforts.

As charities moved through 2025, these ongoing pressures were compounded by a significant reduction in federal funding, creating financial strain for organizations that have traditionally relied on it. Cuts to public social services also increased demand for charitable programs. According to the Urban Institute's report, How Government Funding Disruptions Affected Nonprofits in Early 2025, one-third of nonprofits reported experiencing at least one type of government funding disruption in the first four to six months of 2025. These disruptions are likely to have a significant impact on nonprofits' revenue, staffing, and ability to deliver programs.

Adding to this complexity, recent federal reinterpretations of diversity, equity, and inclusion (DEI) policies have introduced new funding constraints and compliance uncertainties for organizations serving specific populations or equity-focused missions. While the effects are not yet fully understood, overall, 2025 brought a distinct set of challenges for many of the charities you support.

Our most recent Donor Trust Report aimed to gauge public awareness of the challenges faced by the charitable sector in 2025. The results were based on a survey conducted at the end of September 2025 with more than 1,500 adults across the United States. One survey question asked participants to rate, on a 10-point scale, their level of agreement with two opposing statements: at one end (1–2), "Charities are primarily engaged in promoting **social good causes** rather than political agendas," and at the other (9–10), "Charities are primarily engaged in **political agendas** rather than promoting social good causes." Here we share the overall results, along with differences observed across generations.

Which of the following statements best describes your opinion? (overall)

Which of the following statements best describes your opinion? (at the extremes, by generation)

Charities are primarily engaged in promoting social good causes rather than political agendas (1 - 2)
 Charities are primarily engaged in political agendas rather than promoting social good causes (9 - 10)

When asked whether, to the best of their knowledge, federal funding for charities had increased, decreased, or remained the same, fewer than one in three respondents (32%) were aware of reductions in federal funding for charities in 2025. Among those who reported being aware of these cuts, most viewed the reductions as either very negative (42%) or somewhat negative (23%).

How do you view recent reductions in government funding to charities?

BBB WISE GIVING ALLIANCE LAUNCHED ASKGIVE, AN AI-POWERED GIVING ADVISOR

In August of this year, BBB Wise Giving Alliance launched AskGive, a groundbreaking generative AI tool that provides donors with trusted information about charities and giving in real-time. The innovative platform addresses growing concerns about donor trust by making charitable giving advice more accessible than ever before.

AskGive harnesses the power of advanced artificial intelligence alongside BBB Wise Giving Alliance's extensive library of charity evaluations, expert-vetted charity data, and trusted donor guidance. Through an intuitive conversational interface, the tool delivers instant answers to donor questions while connecting users directly to comprehensive giving tips, detailed charity reports, and each organization's BBB Accreditation status.

"Our vision for AskGive is simple: empower individuals to give confidently and help them connect with trusted charities," said Bennett Weiner, President & CEO, BBB Wise Giving Alliance. "We built this technology not just to encourage wise giving, but to ensure trust and transparency remain central to philanthropy in our increasingly digital world."

Addressing Critical Need in Charitable Sector

The launch comes at a crucial time when the sector faces low donor trust and a 'generosity crisis' where the number of households giving to charity is declining. AskGive leverages BBB Wise Giving Alliance's 100-year legacy of building trust and maintaining rigorous standards-backed charity evaluation to offer donors a reliable new pathway forward.

The tool transforms how people approach charitable giving by providing immediate access to verified information all in one place. Users can ask specific questions about charities, explore giving strategies, and receive guidance tailored to their philanthropic interests and concerns.

New Technology, Trustworthy Approach

AskGive was developed through a strategic collaboration between BBB Wise Giving Alliance and Handshake, combining BBB Wise Giving Alliance's deep expertise in charity evaluation with cutting-edge AI technology. Following a successful year-long beta testing period that incorporated valuable stakeholder feedback, the tool is now available to the public.

You can begin using AskGive by visiting Give.org/AskGive/ or any page on Give.org, where you'll find an accessible platform designed to guide you toward informed giving decisions.

MAKING TIME TO MAKE A DIFFERENCE

New data highlights the increasing value of volunteer time. According to a report by Independent Sector and the Do Good Institute at the University of Maryland's School of Public Policy, the estimated national value of an hour of volunteer time rose to \$39.79 in 2024, a 3.9% increase from 2023. This average, which includes all 50 states, the District of Columbia, and Puerto Rico, reflects the growing economic significance of volunteer contributions. Notably, three states (Massachusetts, Washington, and California) and Washington, D.C., surpassed the \$40 per hour threshold. The valuation is based on annual average hourly earnings data from the U.S. Bureau of Labor Statistics.

Thinking About Volunteering? Here's How to Begin

Beyond supporting the causes you care about, volunteerism offers personal fulfillment and the chance to strengthen communities. As we look forward to a new year, it's a great time to set meaningful intentions and get involved. Here are a few tips to help you get started:

- Pick a cause you care about. If you're
 a nature lover, ask around about environmental
 organizations in your area. If you'd love to help
 animals, most communities will have shelters
 in need of volunteers.
- Ask what is needed. Find out what charities need most and let them know your professional skills for the best fit. Avoiding duplication of efforts is another factor charities must consider when accepting new volunteers.
- Keep an open mind. Remember that a charity might not ask you to do exactly what you want to do. Don't hesitate to share your preferences, but remain adaptable and considerate, as your responsibilities may shift with increased experience.
- Start small. Committing just a few hours per month would be a good start and will let you see if the volunteer opportunity you've chosen is a good fit. You don't want to commit to more hours than you can handle or waste the precious time of charity staff members trying to train, coordinate and meet program demands.
- Visit give.org and verify if the charity you're considering meets the 20 BBB Standards for Charity Accountability.

How to Read the List of National Charities

he following is an alphabetical listing of the charities that are the subjects of BBB Wise Giving Alliance evaluations. The list includes organizations that have requested to be evaluated as well as those that have received the highest volume of inquiries. The BBB WGA receives inquiries through the mail, phone, e-mail and referrals from local Better Business Bureaus.

Please note the following explanations about this list:

Name Inclusion: Inclusion on this list should not be interpreted as approval or disapproval of a charity. The information in this listing is intended solely to assist donors in exercising their own judgment.

Name Omission: Omission from this list should not be interpreted as meaning that a charity meets or does not meet standards. In general, it simply means that the BBB WGA has not developed a report because it has not received recent inquiries about a charity or a charity has not requested to be evaluated.

Latest Results: This list reflects the latest charity report results as of October 21, 2025. Charity reports are available until their expiration dates, generally two years after their completion. All reports are based on the BBB Wise Giving Alliance Standards for Charity Accountability.

Are you looking for a national charity that's not on our list? Ask us about specific national charities not currently included. Encourage national charities we don't currently report about to contact us about enrolling online (there's never a charge for evaluation). In either way, you can help expand the list.

Note to readers about "see entry for"

Charities sometimes use several names in their materials. In some cases the variation is only slight, such as using an acronym for the full name. In other cases, the names have no self-evident connection, as, for example, the official corporate name and a name used in fund raising. In still others, different individual names may denote different programs of the same organization. This list includes all names currently used by a charity, but the evaluation status of that charity appears only under the main entry. White horizontal bars indicate an alternate name, and refer you to the evaluation listing.

Definitions for the List's Column Headings

Accredited (Met Standards) — Charities with a green check box In the first column next to their name met the 20 Standards for Charity Accountability on pages 44-45. There is no charge to charities for the accreditation evaluation.

Standards Not Met — If a charity has number codes (for example: 3, 6, 7) in the second column with a yellow X mark X that means the charity did not meet cited provision(s) of the BBB Charity Standards on pages 44-45.

Unable to Verify — If a charity has number codes (for example: 8, 9, 13) in the column with a blue question mark that means the BBB WGA was unable to verify if the charity met the cited provision(s) of the BBB Charity Standards on pages 44–45. This designation indicates that the charity either did not provide all of the requested information or the information provided was not sufficient to conclude that they met the cited standard(s).

Did Not Disclose — If a charity has a red exclamation mark the charitable organization either has not responded to written BBB WGA requests for information or has declined to be evaluated in relation to the BBB Standards for Charity Accountability. Charity participation in the BBB WGA's review is voluntary. However, without the requested information, it is not possible to determine whether these charities adhere to all of the BBB Standards for Charity Accountability. The BBB WGA encourages charities to disclose accountability information beyond that typically included in financial statements and government filings, in order to demonstrate transparency and strengthen public trust in the charitable sector. The majority of national charities contacted by BBB WGA provide information and participate in the BBB WGA's evaluation program.

Review in Progress — Charities with a in the column marked Review in Progress are being routinely evaluated based on current materials provided by the organization to the BBB WGA.

Q&A about BBB Wise Giving Alliance

• How is BBB WGA different from other charity evaluators?

A BBB WGA and its predecessor organizations have reported on charities for over 100 years. We develop charity accountability standards and assess whether charities meet these standards. Our standards-based approach promotes good practices and comprehensive disclosure to potential donors so that they can make informed giving decisions. Our standards address governance, results reporting, finances, appeal accuracy, website disclosures, and more. Our financial review focuses more on the charity's audited financial statements than the IRS Form 990, to get a more complete picture. During the evaluation process, BBB Wise Giving Alliance individually corresponds with the charity, provides a report draft, and informs the charity how it can address any issue(s) found with the BBB Charity Standards.

Q Does BBB WGA rate or grade charities?

A No. Charities are not rated against one another. A BBB WGA evaluation concludes either that a charity meets all the standards or does not meet certain ones, for reasons described in the report. Whatever the conclusion, the report does not represent approval or disapproval of the organization or its cause. BBB WGA does not suggest that prospective contributors give, or not give, to any particular organization.

• How does the BBB WGA decide which charities to review?

A Inquiries from the public about a particular national charity prompt a BBB WGA letter requesting that the charity file information for a review. These inquiries come to us directly, by mail, phone, e-mail, and in referrals from local Better Business Bureaus. In addition, charities may file information for a review on their own initiative. In either case, BBB WGA determines whether the charity is soliciting nationally before it requests information. There is no charge to charities for being evaluated.

National Charity Seal Licensing Program

give.org

7 atch for the seal in a charity's mailings, on its website, in newspaper and magazine advertisements, on TV, in public service announcements, and elsewhere. The seal means the national charity displaying it meets the comprehensive standards of the BBB Wise Giving Alliance.

Use of the seal is entirely voluntary. Not every national charity that meets the standards will choose to participate in the seal program. Participants sign a license agreement and pay a sliding-scale fee based on their total contributions in the past year. A national charity is eligible to apply for participation in the seal program only after an evaluation concludes that the charity meets standards. Licensing fees help BBB WGA cover its expenses.

Occasionally donors ask BBB WGA whether licensing fees influence the outcome of charity evaluations. The answer is no. Our analyst staff is very thorough for each evaluation completed. After a charity report is posted online that shows the organization meets all 20 standards, a separate marketing staff then contacts the charity to invite them to consider participating in the seal program. In addition to this separation of the analytical and licensing processes, BBB WGA ensures that seal participants are reviewed with the same frequency (every two years) as other national charities. Since the inception of the Accredited Charity Seal, about 9% of participating charities were dropped from the seal program as the charity either no longer met standards or did not provide requested updated information. BBB WGA's commitment to objectivity is unwavering. We know that the public's trust in our work is essential to our credibility.

BBB Standards for Charity Accountability

After a three-year period, drawing on independent research on donor expectations, professional and technical assistance from a variety of philanthropic experts, and numerous comments from donors and charities, the BBB Wise Giving Alliance issued the *Standards for Charity Accountability*.

The full text of the new standards, with a preface and an Implementation Guide describing how the Alliance applies them, is accessible on our website, www.give.org.

GOVERNANCE AND OVERSIGHT

The governing board has the ultimate oversight authority for any charitable organization. This section of the standards seeks to ensure that the volunteer board is active, independent and free of self-dealing. To meet these standards, the organization shall have:

- **1.** A board of directors that provides adequate oversight of the charity's operations and its staff. Indication of adequate oversight includes, but is not limited to, regularly scheduled appraisals of the CEO's performance, evidence of disbursement controls such as board approval of the budget and fund raising practices, establishment of a conflict of interest policy and establishment of accounting procedures sufficient to safeguard charity finances.
- **2.** A board of directors with a minimum of five voting members.
- **3.** A minimum of three evenly spaced meetings per year of the full governing body with a majority in attendance, with face-to-face participation. A conference call of the full board can substitute for one of the three meetings of the governing body. For all meetings, alternative modes of participation are acceptable for those with physical disabilities.
- **4.** Not more than one or 10% (whichever is greater) directly or indirectly compensated person(s) serving as voting member(s) of the board. Compensated members shall not serve as the board's chair or treasurer. [Publicly soliciting churches and other houses of worship: see the Implementation Guide at www.give.org for further information about the application of this standard.]
- **5.** No transaction(s) in which any board or staff members have material conflicting interests with the charity resulting from any relationship or business affiliation. Factors that will be considered when concluding whether or not a related party transaction constitutes a conflict of interest and if such a conflict is material, include, but are not limited to: any arm's length procedures established by the charity; the size of the transaction relative to like expenses of

the charity; whether the interested party participated in the board vote on the transaction; if competitive bids were sought and whether the transaction is one-time, recurring or ongoing.

MEASURING EFFECTIVENESS

An organization should regularly assess its effectiveness in achieving its mission. This section seeks to ensure that an organization has defined, measurable goals and objectives in place and a defined process in place to evaluate the success and impact of its program(s) in fulfilling the goals and objectives of the organization and that also identifies ways to address any deficiencies. To meet these standards, a charitable organization shall:

- **6.** Have a board policy of assessing, no less than every two years, the organization's performance and effectiveness and of determining future actions required to achieve its mission.
- 7. Submit to the organization's governing body, for its approval, a written report that outlines the results of the aforementioned performance and effectiveness assessment and recommendations for future actions.

FINANCES

This section of the standards seeks to ensure that the charity spends its funds honestly, prudently and in accordance with statements made in fund raising appeals. To meet these standards, the charitable organization shall:

Please note that standards 8 and 9 have different denominators.

8. Spend at least 65% of its <u>total expenses</u> on program activities.

Formula for Standard 8:

Total Program Service Expenses

should be at least 65%

Total Expenses

9. Spend no more than 35% of <u>related contributions</u> on fund raising. Related contributions include donations, legacies and other gifts received as a result of fund raising efforts.

Formula for Standard 9:

Total Fund Raising Expenses

Total Related Contributions

should be no more than 35%

10. Avoid accumulating funds that could be used for current program activities. To meet this standard, the charity's unrestricted net assets available for use should not be more than three times the size of the past year's expenses or three times the size of the current year's budget, whichever is higher. [Meeting certain public disclosure requirements described in the Implementation Guide at www.give.org may enable a charity to satisfy this standard.]

An organization that does not meet Standards 8, 9 and/or 10 may provide evidence to demonstrate that its use of funds is reasonable. The higher fund raising and administrative costs of a newly created organization, donor restrictions on the use of funds, exceptional bequests, a stigma associated with a cause and environmental or political events beyond an organization's control are among factors which may result in expenditures that are reasonable although they do not meet the financial measures cited in these standards.

- 11. Make available to all, on request, complete annual financial statements prepared in accordance with generally accepted accounting principles. When total annual gross income exceeds \$1,000,000, these statements should be audited in accordance with generally accepted auditing standards. For charities whose annual gross income is less than \$1,000,000, a review by a certified public accountant is sufficient to meet this standard. For charities whose annual gross income is less than \$250,000, an internally produced, complete financial statement is sufficient to meet this standard.
- 12. Include in the financial statements a breakdown of expenses (e.g., salaries, travel, postage, etc.) that shows what portion of these expenses was allocated to program, fund raising and administrative activities. If the charity has more than one major program category, the schedule should provide a breakdown for each category.
- **13.** Accurately report the charity's expenses, including any joint cost allocations, in its financial statements. For example, audited or unaudited statements which inaccurately claim zero fund raising expenses or otherwise understate the amount a charity spends on fund raising, and/or overstate the amount it spends on programs will not meet this standard.
- **14.** Have a board-approved annual budget for its current fiscal year, outlining projected expenses for major program activities, fund raising and administration.

FUND RAISING AND INFORMATIONAL MATERIALS

A fund raising appeal is often the only contact a donor has with a charity and may be the sole impetus for giving. This section of the standards seeks to ensure that a charity's representations to the public are accurate, complete and respectful. To meet these standards, the charitable organization shall:

15. Have solicitations and informational materials, distributed by any means, that are accurate, truthful and not misleading, both in whole and in part.

Appeals that omit a clear description of program(s) for which contributions are sought will not meet this standard.

A charity should also be able to substantiate that the timing and nature of its expenditures are in accordance with what is stated, expressed or implied in the charity's solicitations.

16. Have an annual report available to all, on request, that includes:

- (a) the organization's mission statement,
- (b) a summary of the past year's program service accomplishments,
- (c) a roster of the officers and members of the board of directors,
- (d) financial information that includes:
 - (i) total income in the past fiscal year,
 - (ii) expenses in the same program, fund raising and administrative categories as in the financial statements, and
 - (iii) ending net assets.
- 17. Include on any charity websites that solicit contributions, the same information that is recommended for annual reports, as well as the mailing address of the charity and electronic access to its most recent IRS Form 990.

18. Address privacy concerns of donors by

- (a) providing in written appeals, at least annually, a means (e.g., such as a check off box) for both new and continuing donors to inform the charity if they do not want their name and address shared outside the organization, and
- (b) providing a clear, prominent and easily accessible privacy policy on any of its websites that tells visitors
 - (i) what information, if any, is being collected about them by the charity and how this information will be used,
 - (ii) how to contact the charity to review personal information collected and request corrections,
 - (iii) how to inform the charity (e.g., a check off box) that the visitor does not wish his/her personal information to be shared outside the organization, and
 - (iv) what security measures the charity has in place to protect personal information.
- 19. Clearly disclose how the charity benefits from the sale of products or services (i.e., cause-related marketing) that state or imply that a charity will benefit from a consumer sale or transaction. Such promotions should disclose, at the point of solicitation:
- (a) the actual or anticipated portion of the purchase price that will benefit the charity (e.g., 5 cents will be contributed to abc charity for every xyz company product sold),
- (b) the duration of the campaign (e.g., the month of October),
- (c) any maximum or guaranteed minimum contribution amount (e.g., up to a maximum of \$200,000).
- **20.** Respond promptly to and act on complaints brought to its attention by the BBB Wise Giving Alliance and/or local Better Business Bureaus about fund raising practices, privacy policy violations and/or other issues.

BBB Wise Giving Alliance 3101 Wilson Boulevard, Suite 523 Arlington, VA 22201

Thanks for Your Support

ey support for the BBB Wise Giving Alliance comes from individuals like you. Your donations make possible the charity evaluations and wise giving publications you rely on. Thank you for your generosity and your shared interest in strengthening the accountability of the nation's charities. Give with confidence to charities and give generously.

give.org

Look for our Seal on charity websites and appeals as a quick and easy way to see that the charity has met the *BBB Standards for Charity Accountability*. National charities that meet the Standards have the option of participating in our seal program. Go to **www.give.org** for more details.
